To Whom It May Concern:

My name, current address and telephone number are given above and I am a member of the Settlement Class. I will not appear in court.

My specific objection to the settlement is that I find the proposed distribution of the \$ 9 million settlement funds absurd. I cannot see a rational for awarding most of these funds to Court-approved not-for-profit organization, institutions, or programs, which are not directly connected to the case, and only the tiny fraction of \$ 30,000 to the Named Plaintiffs. After attorneys' fees and other expenses the remaining settlement funds should entirely be awarded to the Named Plaintiffs.

Only to the court:

The whole idea of a class action law suit appears to me that class members are awarded damages that are too small to be pursued individually. So, I am not willing to spend major expenses on the prospect of a small award. This leads to the problem that I may not be able to serve these objections properly to the councils. I hope that the court find some remedy for that. Just in case that ordinary mail is sufficient, I have added stamped letters addressed to the councils and stating the above objection.

Sincerely,

(Bernd Berg)
